Dear Elcin Kuliyev,

Congratulations on successfully completing the NDG Linux Unhatched course in the Cisco Networking Academy. By completing this course, you have obtained the Linux knowledge covered by the CompTIA A+ Certification and are now prepared to take the next step in your IT career.

Linux is everywhere! As the reach of Linux continues to grow, it has established itself as a core skill for all IT professionals. Linux skills are more in demand than ever and employers are struggling to find qualified candidates to meet their needs. Become a stronger prospect in the job market by continuing your education with one of the courses listed below, aligned to industry recognized certifications.

[NDG Linux Essentials](#)

This course is the perfect next step for beginners looking to deepen their understanding of the world of Linux. This full semester course can be taken from an instructor or as a self-paced learning experience. The NDG Linux Essentials course is designed to prepare you for the Linux Professional Institute Linux Essentials Professional Development Certificate.

[NDG Linux Series](#)

This certification level series offers beginners more rigorous in-depth coverage. The NDG Linux I and NDG Linux II courses focus on the basic Linux system administration skills needed in preparation for the Linux Professional Institute LPIC-1 or CompTIA Linux+ powered by LPI certification.

[IT Essentials](#)

For more on fundamental computer and career skills for entry-level IT jobs, Cisco Networking Academy offers IT Essentials, aligned to the CompTIA A+ certification. The IT Essentials curriculum includes hands-on labs that provide practical experience. Virtual tools help you hone your troubleshooting skills and practice what you learn.

Again, congratulations and we wish you continued success!

Sincerely,

Rich Weeks
President
Network Development Group

12 Dec 2019

Dear Elcin Kuliyev,

Congratulations on successfully completing the NDG Linux Essentials course in the Cisco Networking Academy. By completing this course you are now prepared to earn the Linux Essentials Professional Development Certificate from the Linux Professional Institute (LPI).

Today's job market is competitive, but the rewards are worth it. With employers reporting they are paying salaries well above company norms, paying out bigger bonuses and offering flexible schedules, there has never been a better a time to have strong Linux abilities. Verifying your skills with a professional certificate can be a great way to stand out from other candidates, by proving you have the technical abilities required for the job. Become a stronger prospect in the job market by pairing our certificate with other industry-recognized certifications such as Cisco Certified Network Associate (CCNA).

Obtaining the Linux Essentials Professional Development Certificate shows that you:

- Understand the Linux operating system
- Have demonstrated the ability to navigate a Linux system
- Can execute the power of the Linux command line
- Possess knowledge of Linux security and file permissions
- Have the motivation to advance your IT career

To help you accelerate your career we'd like to offer you 20% off of the Linux Essentials Professional Development Certificate today. To get started, visit:

<https://www.lpi.org/netacadLE>

We hope you'll continue your Linux studies with the NDG Introduction to Linux I course. This course prepares you for the LPIC-1 101 Exam, the first of two towards the LPIC-1 Linux Server Professional certification from the Linux Professional Institute (LPI). The LPIC-1 certification will show you have the in-demand Linux skills that employers are seeking.

Again, congratulations and we wish you continued success!

Sincerely,

G. Matthew Rice
Executive Director
Linux Professional Institute

5 May 2020

Dear Elcin Kuliyev,

Congratulations on successfully completing the NDG Linux II course in the Cisco Networking Academy. By completing this course, you are now prepared to take and pass the final exam that completes the LPIC-1 Linux Server Professional certification from the Linux Professional Institute (LPI).

Certifying your Linux skills can be a great way to show employers that you are invested in your career. By proving you have the skills in-demand in today's workplace, you can set yourself up to get noticed for that next job or promotion, in addition to showing you have the ability to tackle that next big project. Differentiate your professional certification portfolio with verified Linux skills and prove to prospective employers your ability to work in a rapidly changing landscape of Open Source technology adoption. Become a stronger prospect in the job market by pairing our certification with other industry-recognized certifications such as Cisco Certified Network Associate (CCNA).

Passing the LPIC-1 102 exam shows that you have a demonstrated command of:

- Shells, Scripting and Data Management
- Interfaces and Desktops
- Administrative Tasks
- Essential System Services
- Networking Fundamentals
- Security

If you have already taken and passed the LPIC-1 101 Exam, then you are now just a step away from completing the LPIC-1 Linux Server Professional certification. To help you accelerate your career, we'd like to offer you 20% off of your LPIC-1 102 exam. To get started, visit: <https://www.lpi.org/netacadlpic102>

We hope you'll continue with the NDG Linux II course and prepare to pass the LPIC-1 102 Exam to complete the requirements for becoming LPIC-1 certified.

Again, congratulations and we wish you continued success!

Sincerely,

G. Matthew Rice
Executive Director
Linux Professional Institute
